SKILLS

Programming Languages

- JavaScript
- TypeScript
- Python
- SQL
- C++

Web & Backend

- React
- Node.js
- Express.js
- HTML
- CSS

Databases & Tools

- MySQL
- Firebase
- Git & GitHub

LANGUAGES

Romanian — Native

English — Advanced (C1)

CERTIFICATIONS

Web Programming 101 — Cisco Networking Academy, 2025

Web Programming 102 — Cisco Networking Academy, 2026

SUMMARY

Engineering student with hands-on experience in **software development, web technologies** and **collaborative projects**. Built applications using JavaScript, TypeScript, Python, SQL, React and Node.js, with exposure to databases, APIs and Agile teamwork. Interested in cloud-based product development and enterprise software solutions.

PROFESSIONAL EXPERIENCE

Vodafone Intelligent Solutions (VOIS)

Summer School of Engineering Participant

07/2026 – 08/2026 | Bucharest, Romania

- Collaborated in a four-person **Agile team** to develop a mobile application using React Native, TypeScript and Firebase.
- Implemented** and **tested** application features, applying software development and testing practices throughout the project.
- Presented the final application in English to industry mentors, explaining technical decisions and demonstrating key features.

EDUCATION

B.Sc. in Electronics, Telecommunications and Information Technology

POLITEHNICA Bucharest

2024 – 2028 | Bucharest, Romania

- Relevant coursework: Object-Oriented Programming, Database Systems, Data Structures and Algorithms.

PROJECTS

Automotive Service Management System

React, TypeScript, Node.js, Express.js, MySQL, REST APIs

- Built a responsive web application for managing customers, vehicles, inventory and invoices.
- Developed **reusable React components** and implemented filtering, CRUD operations and management workflows.
- Designed a Node.js/Express **REST API** integrated with a MySQL database for data management.

Personal Portfolio Website

React, TypeScript, Vite, GitHub API

- Developed a responsive personal portfolio with **multiple layouts** and reusable React components.
- Integrated the **GitHub API** to display repositories dynamically and optimized the interface for different screen sizes.

SetItUp — Collaborative Social Mobile Application

React Native, TypeScript, Expo, Firebase, Jest, Git

- Collaborated in an **Agile team** to develop mobile and web features using React Native, TypeScript and Firebase.
- Implemented **Firebase Authentication, Firestore** and **Storage** to support user accounts and real-time application data.
- Built authentication, profiles, friend management and social interaction features while following collaborative development workflows.
